Sir:

The following remarks are submitted in response to the non-final Office Action dated June 7, 2006.

REMARKS

Claims 1 through 20 remain pending. Favorable reconsideration of the application in light of the following comments is respectfully solicited.

The courtesy of Examiner Rutledge during the interview of September 5, 2006 is appreciated. In that interview, applicant provided explanation of the subject matter of independent claims 1 and 11, with identification of relevant portions of the specification and drawings, as presented in the remarks below. The differences between the claimed requirements and the applied Morita reference were clarified, also as set forth in the remarks below. Ms. Rutledge stated that she understood the distinctions presented, which would be considered when acting in response to the present Amendment.
